The evolution of computer science and communication technology leads to a digitalization in all spheres of business and social life. Digitalization opens new possibilities for the way of educating people. At the same time, the increasing pace of technological innovation requires life long learning. This particularly concerns higher education.

Computer Science experts and communication technology experts are requested to deliver their contribution also to remote education technology and the digital transformation of education. They can best do so by providing innovative new formats for education in their own subjects.

Topics include, but not limited to:

- Digitalization of classroom education
- Digitalization of remote education
- Extra-occupational and remote education in information and communication technology subjects
