

Dr. Olaf Herden

Dr. Olaf Herden received a diploma degree in computer science from the University of Oldenburg in 1996. Following that, he worked as a researcher at OFFIS – Institute for Computer Science. He earned the Ph.D. from the University of Oldenburg in 2001 with his dissertation focusing on a design methodology for data warehouses.

In 2002, Olaf joined DHBW (Baden-Wuerttemberg Cooperative State University) Stuttgart as a professor of computer science. He lectures in programming, algorithms and data structures, and database systems. His research interests include database systems and education in informatics.

He is currently the head of the Department of Computer Science at Campus Horb at DHBW. He is a member of the German Informatics Society and ACM.
