Dr. Svetlana Boudko

Dr. Svetlana Boudko is a Senior Research Scientist at the Norwegian Computing Center in Oslo, Norway. She defended her PhD in computer science at the University of Oslo in 2014. She has over 20 years of experience working on R&D projects. She has served as a program committee member for several scientific journals and conferences, including MDPI Sensors, MDPI Information, MDPI Electronics, MoMM (International Conference on Advances in Mobile Computing & Multimedia), GameSec (Conference on Decision and Game Theory for Security), and NordSec (Nordic Conference on Secure IT Systems). Additionally, she cochairs the SecHealth Workshop in conjunction with the International Conference on Availability, Reliability and Security. Her areas of interest include cybersecurity, privacy and data protection, secure multi-party computation, and federated learning.
